

A Note of Welcome

Colleagues,

It is my pleasure to present to you CARE's second Operations Management course catalog.

The Operations Management catalog contains a listing of courses available to CARE staff around the world in fiscal year 2008 and is designed to cover operations management subjects like procurement, finance, administration, risk reduction and similar subjects vital to operational excellence. Taking opportunities to strengthen our operations management skills will enable us to achieve greater impact and excellence in all aspects of our work.

We remain steadfast in our hope that this catalog will be a useful tool to help staff around the world improve their operations management skills. We also hope that our courses will continue to build knowledge and skills needed to help staff pursue career development and advancement goals within CARE.

Thank you for making the commitment to learn and grow.

Regards,
Joe Iarocci
Senior Vice President, Finance
& Chief Financial Officer
